

CONFIRMATION 2021 INFORMATION

What is Confirmation at Christ Church?

The Confirmation Program at Christ Church seeks to serve two main purposes:

- 1) To provide our students with education on the basics of faith, and the experience of the rhythms of worship, growth, and service in order to offer the student to make their faith in Jesus Christ their own in a public “confirmation” of faith.
- 2) To offer our freshman class a smooth in-road to the high school community, Koinonia, through more intimate groups of 3-4 students and one adult mentor who helps guide students through the process.

Three Main Pieces of the Confirmation Journey

- 1) Daily Devotional + Mentor Group Meetings | Students will engage in daily devotions five times per week to work through the confirmation curriculum. The devotions will be housed on a specifically-designed webpage for the confirmation journey. Every other weeks, mentor groups will gather on Zoom to go over the content from the last weeks and to help each other answer questions that have come up or new learnings that they have been struck by.
- 2) Community | We encourage our confirmation students to be regularly involved in community as they navigate the confirmation journey. Two great options are the Wednesday evening freshman small groups, and weekend worship services at Christ Church. These rhythms of community and worship are important for all of us in our faith journeys!
- 3) Prayer Path | Every year, we encourage our confirmation students to engage in a prayer labyrinth experience called the prayer path. This exercise is guided by audio tracks that lead you into reflection on your relationship with Jesus and how that affects your way of living and perspective for others. Look for more details on the prayer path to come in the next month.

Schedule

Students will begin their daily devotions on February 1 – Link to devotional webpage will come the week prior. The Confirmation Celebration service is tentatively set for **Saturday, May 8th**, where we will praise God for all he has done in the lives of our students!
