Global Mission Partner
Chiang Mai, Thailand

Project Video works to proclaim the Gospel to the 2.7 billion people in Asia who are completely “unreached” by Christianity. Leveraging the portability of audio/visual media, Project Video brings the Good News to remote areas of the world where Bibles and Christian resources are unavailable, much of the population is illiterate, and the name “Jesus” has never been heard before.

Project Video trains and equips believers in remote areas to create their own Christian videos and audio Bibles. Donating equipment and building production studios, “PV” then teaches the local teams to create and spread Christian content. Thus, indigenous leaders can share God’s word with unreached people, in their own language and context, in places where missionaries are unlikely to go.

Reflect and Discuss:

“All authority in Heaven and on Earth has been given to me.”
“And surely I am with you always, to the very end of the age.”
How do Jesus’ encouraging statements impact your feelings about his mandate to make disciples of all nations? How will you respond?

In the video, Jas states that a local person “is more likely to be accepted when sharing the Gospel, because both the messenger and the message will come in a form that they are familiar with.” How does this shift your sense of your own ability to share your faith with the people you encounter?

Multiplying Churches and Disciples

One of the primary ways God changes the world for the better is through the radiant influence of disciple-making churches. Christ Church, therefore, invests in individuals and ministries serious about evangelistic witness, discipleship, and church-planting. In this way, we advance the redemptive work of Christ faster than any other measure.

Pray:

- For the safety and success of Project Video’s ministry.
- That God would open the hearts of unreached people to receive the Good News.
- That those who hear the news would share it, spreading Christianity “to all nations.”
